

Hearts for Healthcare Workers

We are so grateful for Houston Methodist's extraordinary efforts to support our patients, families, and community at large. To show your gratitude, the Center for Performing Arts Medicine invites you to join a national campaign, #HeartsforHealthcareWorkers. Join us in displaying a heart on your front door, window, or mailbox to let all front line workers know how much we appreciate them.

In the heart shape below, color, draw or write the name(s) of a healthcare worker you know. Then, cut out the heart and tape it to your window to share your gratitude. Take a picture of your heart in your window and share it with cpam2@houstonmethodist.org and we will share it with our employees to show them how much our community appreciates them!
